## **Report of the Induction Program for PG Students of CS & IT -2022-23**

The purpose of an Induction Programme is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the college and the department, build bonds with other students and faculty members, and expose them to a sense of larger purpose and self-exploration.

When new students enter an institution, they come with diverse thoughts, backgrounds, and preparations. They come into a new unfamiliar environment and many of them have little knowledge of college. An important task, therefore, is to welcome new students and prepare them for their new roles hence induction program executed.

The Induction Programme was conducted for the UG and P.G, students of the Department of Computer science and Information Technology for the Academic year 2022-2023.

It is not just a welcome ceremony, but the program aimed to instill the ideas, practices, and spirit of the Computer science and Information Technology Department and its unique features. The Induction Program aimed at providing the students with the necessary information and the exposure to perform well during their stay in the college.
