Presently the higher education system of India is being gradually remodeled by the MHRD through progressive steps.

Introduction of skill education is one such step which is being implemented by the parent university. Skill enhancement courses have been introduced in all subjects. Many students, especially of science stream, have demonstrated good aptitude and interest in one or the other subjects they learn. This proposed Incubation Center could be used for grooming promising students and faculty members and also to encourage them to follow through with their projects to completion. The Center could also take up projects on demand from third parties to provide solutions and thus generate revenue.
