**Report on**  
**The Induction Programme for B.Sc. First Year Zoology 2023-24 Batch**  
**Held on**  
02<sup>nd</sup> August 2023  
from 09.10 am to 10.00 am

### **Objectives of Induction Programme**

The objective of any Induction Programme is to help the fresh batch of students to blend in with their seniors and feel comfortable in the new environment, inculcate in them academic discipline and culture of the institution. And also help them bond with other students and faculty members.

An induction program is generally a process of adjustment of students to their new roles and environment. It is a well planned event to educate the new entrants about the conditions in a particular institution, and connect them with the people in it. A Student Induction Programme engages students as soon as they come into the institution. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentors.

### **Inducting the Students**

As part of the current policy of the College the Department of Zoology conducted induction programme for B.Sc. First Year students on 14<sup>th</sup> December 2021, from 09.10 am to 10.00 am. The session was launched at 09.00 am to let all participants to comfortably settle. The induction programme was initiated and presided over by the Head of Department, Dr. S. S. Nanware. He welcomed the faculty members of the department and all the students to the event. In his address, Dr. Nanware elaborately traced the history of the Department, its achievements and its tradition of research. He introduced the students to the working of the department and facilities available. He emphasized that students should also participate in extracurricular activities along with regular study for their overall development.

### **Courses, Scope and Facilities**

Dr. S. S. Nanware elaborated about the courses in the first year i.e. theory and practical papers taught in the first and second semesters. He also detailed about the skill enhancement courses available to the students in the second and third years of the B.Sc. Programme.

Dr. Nanware discussed the value added courses offered by the department and their benefit and scope for students' future. He explained in detail the scope of B.Sc. Programme in zoology; the different public and private enterprises where zoology graduates are desired. In his talk, there was also detailed coverage of the different competitive exams, recruitment board exams and public service commission exams leading to government employment.

He deliberated about the expected outcomes of the B.Sc. Programme with Zoology as one of the optional subjects. He also explained about the IT and instrumentation facilities available with the deptt. and implored the students to make full use of the facilities.

### **Guests of Honor**

Dr. Vishwadhkar Deshmukh spoke in-depth about the intellectual and cultural evolution of humans. He discussed about the importance of emotional intelligence its role in a successful academic and social life. Dr. Deshmukh stressed the need for proper prioritization of our activities both in the college and outside. He motivated the students to take up rewarding intellectual activities for the holistic development.

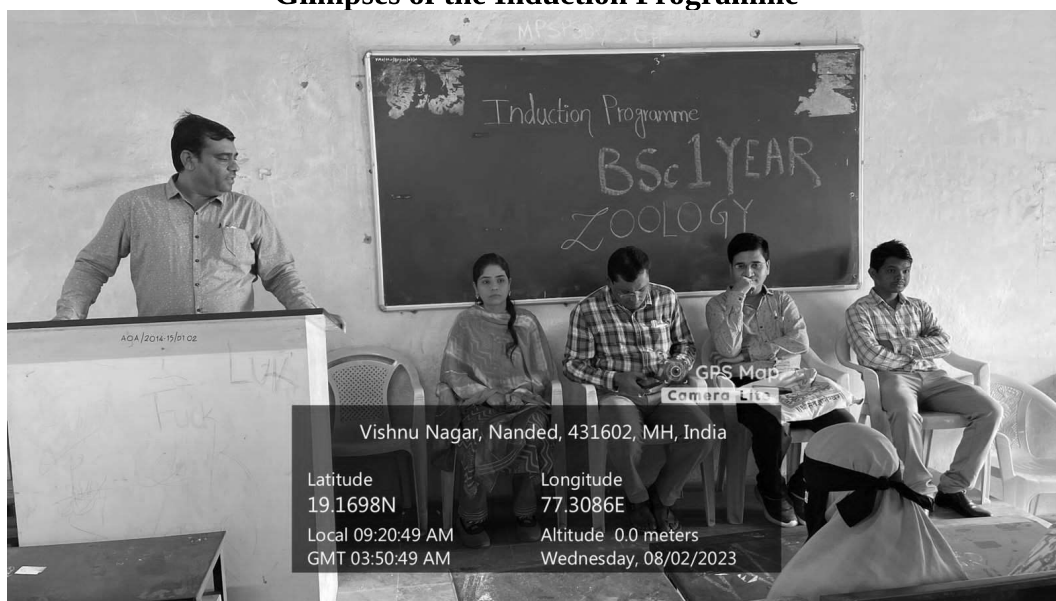

Dr. M. M. V. Baig (Head, Deptt. Of Biotechnology) explained to the students about the scope of zoology after graduation and postgraduation. He went into details of different government, public and private sector opportunities available to skilled zoology graduates. Dr. Baig categorically stressed the need for the students to adopt the spirit of the New Education Policy 2020.

Apart from more than a hundred students, departmental faculty members Dr. H. L. Tamloorkar, Dr. Dipti Totawar, Mr. N. B. Gavhane and Mr. S. D. Mane were also present for the event.

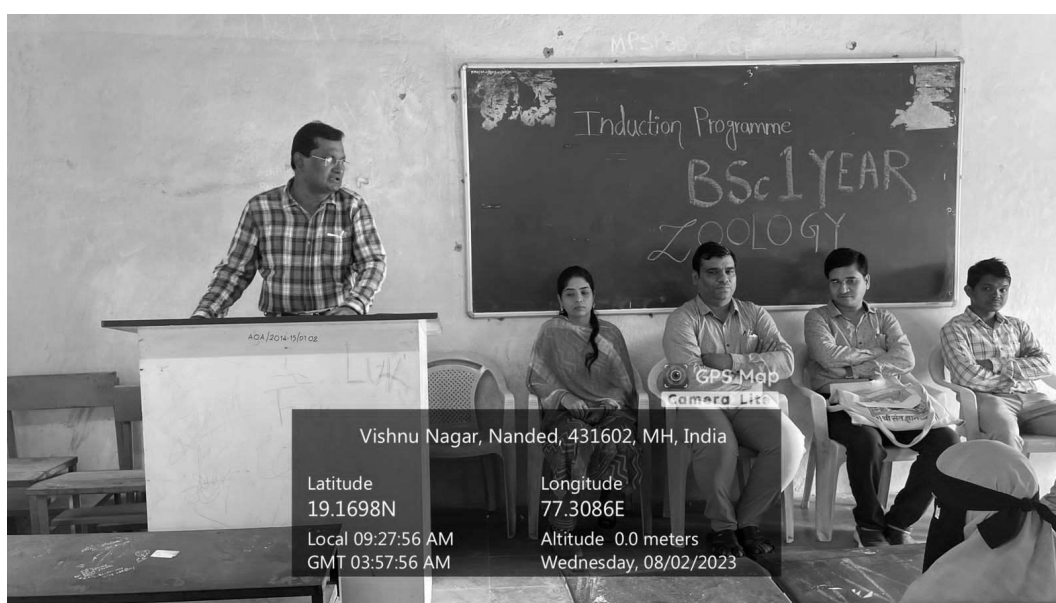

### **Conclusion of Induction Programme**

Dr. M. S. Kadam conveyed the vote of thanks. Dr. Kadam urged the participating students to remain regular and punctual in the college.

### **Glimpses of the Induction Programme**

**Dr. D. B. Bhure setting the stage of the program.**

COVID19 is perhaps one of the worst natural disaster and perhaps the most difficult one of this century. When the world was already gripped by economic and geopolitical uncertainties, Covid19 added to the woes of mankind and shooked the socio-economic fabric of the world to its core.

In the backdrop of the COVID19 pandemic situation and the delay in examination and subsequent admission of students to different courses, the College initiated this practice of inducing newly admitted students to its departments.

### **Objectives of Induction Programme**

The Purpose of Student Induction Programme is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them build bonds with other students and faculty members, and expose them to a sense of larger purpose and self exploration.

The term induction is generally used to describe the whole process whereby the incumbents adjust or acclimatize to their new roles and environment. In other words, it is a well planned event to educate the new entrants about the conditions in a particular institution, and connect them with the people in it.

A Student Induction Programme engages with the freshly admitted students as soon as they come into the institution; before regular classes start. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values.

### **Inducting the Students**

As part of the newly adopted policy of the College, and under the able guidance of the Principal, Dr. Ganeshchandra N. Shinde, the Postgraduate Department of Zoology conducted its induction programme for M.Sc. First Year students on 15<sup>th</sup> January 2021, from 04.00 pm to 05.30 pm.

### **PROGRAM SCHEDULE**

**15 January 2021**

04.00 – 04.20	Welcome Address & About the Dept.	Dr. S. S. Nanware
04.20 – 04.35	Presidential Address	Hon. Dr. G. N. Shinde (Principal, YMN)
04.35 – 04.55	Courses, Scope and Facilities	Mr. B. Balajirao
04.55 – 05.10	Teaching-Learning, Exam Rules & Regulations	Dr. Mrs. M. S. Kadam
05.10 – 05.20	Co-curricular Activities	Dr. Mrs. N. R. Jaiswal
05.20	Vote of Thanks	Dr. D. B. Bhure

In view of the current epidemic, this programme was held virtually using Zoom Online Platform. This was done to minimize physical contact and reduce the risk of contagion.

The Zoom session was launched at 03.50 pm to let all participants to comfortably join the programme. The induction programme was initiated and presided over by the Principal, Dr. Ganeshchandra N. Shinde.

### **President's Address**

The Principal, Dr. Ganeshchandra N. Shinde, welcomed all the students to the College and the Department. In his address, the Hon'ble Principal elaborately traced the history of this Department, its past achievements and its tradition. He elaborately discussed the highlights of the New Education Policy, its provisions and the major changes proposed therein. The Principal stressed the need for reforms in syllabus and course structure for the current courses to conform to the New Education Policy. He also amply emphasized the need for infusing creativity in teaching approaches and at the same time inculcating the culture of free and flexible learning in students.

He traced the objectives of Higher Education in India, in terms of skill enhancement, development of research aptitude and employability of students. At the same time he also laid stress on quality research by teachers. The features and benefits Choice Based Credit System (CBCS) were very lucidly described by the Principal. He discussed freedom of choice of subjects and papers available to the students; especially the lateral movement of students across different institutional frameworks.

Skill enhancement, value added and add-on courses were the next point of discussion by the President. He introduced the different said courses offered by the Department and strongly suggested that the students take up one of these courses. The Principal elucidated the different modes of teaching, both offline and online, that are adopted by the faculty members; also he motivated the teachers to further enrich their teaching with incorporation of modern developments in IT.

The Principal concluded his address by discussing the culture and ethos of India, especially of Marathwada. He expressed expectation from students of becoming responsible scientists and citizens through their learning experience in the Department and the College.

### **Welcome Address by Head of Department**

The Head of Department, Dr. S. S. Nanware, delivered his welcome speech. He welcomed the students to the Department. He also introduced the students to the working of the department and also to the advanced facilities available with the department. He extolled the glorious history of the department and its research tradition.

The Head appealed to the students to take advantage of the skill and talent of the departmental faculty members. He also urged the students to fully utilize the physical and IT facilities available at the department. Dr. Nanware stressed the importance of discipline, punctuality and sincerity in studies to bring out the best in the students.

He emphasized that students should take up original and quality research work for their projects and also participate in extracurricular activities along with regular study for their overall development. Dr. Nanware motivated the

students to develop their skills and adopt critical scientific thinking. He expressed hope that each of the students will try their best to be a good person and an expert in their domain for nation building.

### Courses, Scope and Facilities

Mr. B. Balajirao, one of the faculty members of the Department, described in detail, the courses in the first year i.e. the four theory papers, one seminar paper and two practical papers taught in the first and second semesters.

Firstly, he discussed in depth the theory papers of first semester, i.e. **Theory Paper I: Invertebrates: Structure and Function**, **Theory Paper II: Biosystematics, Taxonomy and Evolution**, **Theory Paper III: Economic Zoology and Animal Behavior**, **Elective Theory Paper IV: Conservation Biology or Quantitative Biology & Bioinformatics**, and **Theory Paper V: Seminar**. Mr. Rao also elaborated on the option of completing any **One of the Online MOOCs** offered by NPTEL-SWAYAM platform of the Government of India.

Later, he described the theory papers of second semester, i.e. **Theory Paper VI: Animal Ecology, Toxicology and Environmental Pollution**, **Theory Paper VII: Gamete Biology and Animal Development**, **Theory Paper VIII: Biochemistry and Immunology**, **Elective Theory Paper IX: Pathobiology & Medical Zoology or Tools & Techniques for Biology**, and **Theory Paper - X: Seminar**.

He told the students about the entrepreneurial value of Ornamental Fish Farming, Vermi-culture & Vermi-composting, Parasitic diseases & Its management and Apiculture. Mr. Balajirao deliberated about the expected outcomes of the M.Sc. Zoology Programme with different specializations. He enumerated the different opportunities available to the students with Fishery Science, Parasitology and Physiology specializations. He discussed about the various research institutions, pharmaceutical firms and animal testing companies that regularly absorb talented students and research scholars.

Mr. Rao elaborately discussed the value added courses offered by the zoology department and their benefit and scope for students' future. He explained in detail the scope of M.Sc. Zoology Programme; the different public and private enterprises where zoology post-graduates are desired. In his talk, there was also detailed coverage of the different competitive exams, recruitment board exams and public service commission exams leading to government employment.

He also explained about the IT and instrumentation facilities available with the deptt. and extolled the students to make full use of the facilities for study and their research projects.

### Teaching-Learning, Exam Rules & Regulations

Dr. Mrs. M. S. Kadam, informed the students about the teaching methodology adopted by the departmental faculty members in normal times and also the current mode of delivery in Covid19 situation. She very clearly explained the exam rules and exam schedule adopted by

the department. She also stressed the need for timely completion and submission of record journals, assignments and project work during the academic session.

Dr. Kadam laid out the different phases of continuous evaluation scheduled for each semester and the theory papers therein. She emphasized the need for discipline and punctuality in assignment work by students and also the significance of regularity in taking exams.

She also outlined the college exam rules, the university exam rules and the different modes of examination adopted at different stages of the M.Sc. Zoology Programme.

### Co-curricular Activities

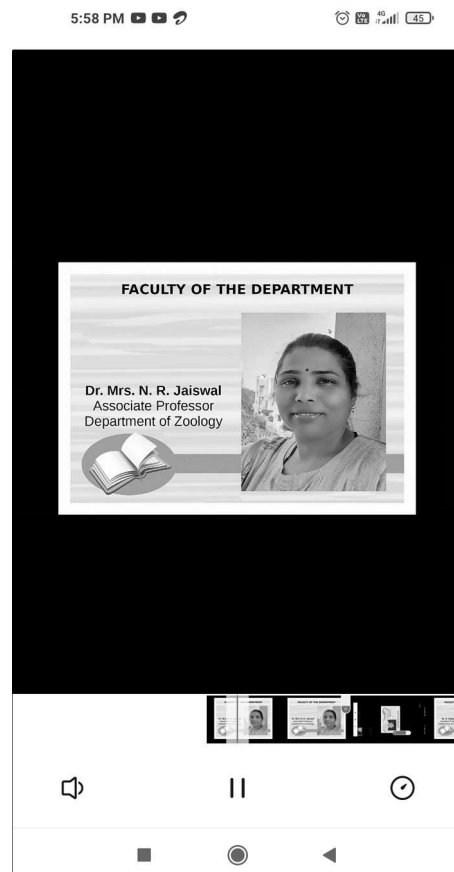

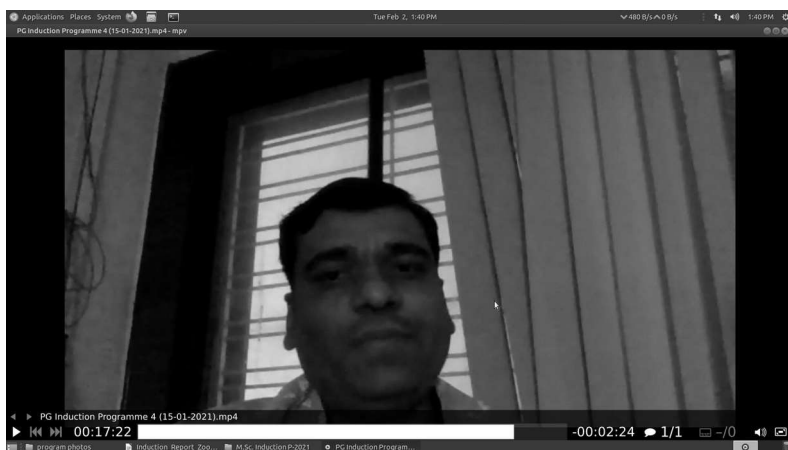

Dr. Mrs. N. R. Jaiswal discussed in detail the different co-curricular activities that are a regular part of teaching-learning process. She elaborated about the requirement of student participation in curricular activities like excursions, seminars and study tours. Her address included the rules of participation in outdoor activities. She stressed the need for discipline while out of the campus on a tour or visit.

Dr. Jaiswal discussed about the university level research competitions “**Anveshan**” and “**Avishkar**”; participation of past students in these events and also strongly encouraged the students to participate in various competitions organized by the college, university and other academic organizations.

### Conclusion of Induction Programme

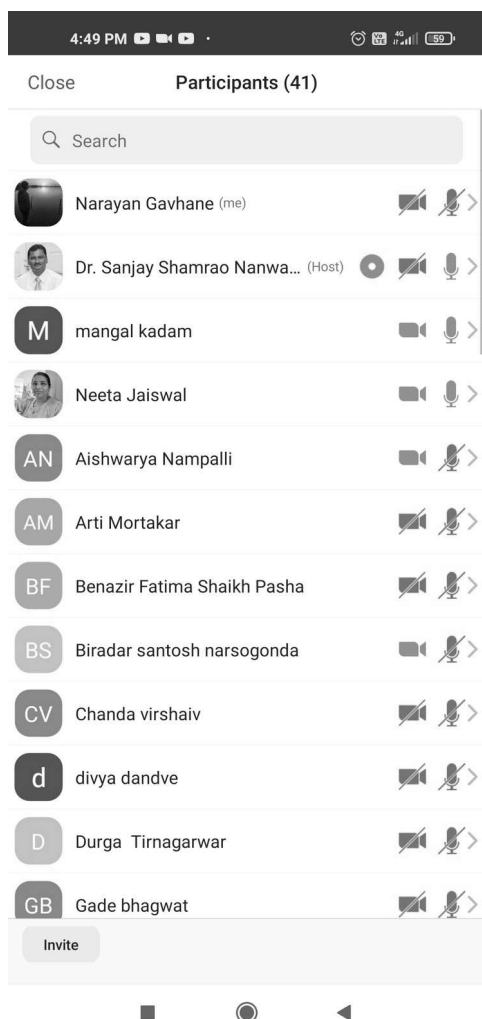

Dr. D. B. Bhure conveyed the vote of thanks.

Dr. Bhure urged the students to fill in and submit the online feedback form.

## Glimpses of the Induction Programme

### Feedback of Student Participants

Q.No.	Question	Rating		
		Excellent	Ok	Could be better
1.	How would you rate the Induction Programme	80.6%	16.7%	2.7%
2.	Did it help you to Prepare for your study in the Department	63.9%	36.1%	--
3.	Did it help you to understand more about the Department	63.9%	36.1%	--
4.	Did this Programme help you understand the working of Zoology Department.	69.4%	27.8%	2.8%
5.	Did it help you to understand more about Teachers of the Department	69.4%	27.8%	2.8%
6.	How was the quality of information provided?	80.6%	19.4%	--
7.	Were the presentation of Teachers clear and understandable?	61.1%	36.1%	2.8%
8.	How did you find the structure of Programme?	72.2%	25%	2.8%

The Induction Programme for M.Sc. First Year Zoology 2021-22 Batch  
Held on**

10<sup>th</sup> January 2022  
from 02.00 to 03.30 pm

**Prelude**

In the backdrop of the possibility of another wave of Covid19, especially of the Omicron variant of the virus, the Department of Zoology deliberated and decided to conduct the induction program for the fresh batch of students of M.Sc. First Year in a low key manner on an online platform.

**Objectives of Induction Programme**

This induction program was held with the objective of helping fresh batch of students adjust and feel comfortable in the new environment, inculcate in them academic discipline and culture of the institution. And also help them bond with other students and faculty members.

An induction program is generally a process of adjustment of students to their new roles and environment. It is a well planned event to educate the new entrants about the conditions in a particular institution, and connect them with the people in it. A Student Induction Programme engages students as soon as they come into the institution. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentors.

**Inducting the Students**

As part of the established policy of the College, and under the able guidance of the Principal, Dr. Ganeshchandra N. Shinde, the Department of Zoology conducted its induction programme for M.Sc. First Year students on 10<sup>th</sup> January 2022, from 02.00 to 03.30 pm. In view of the current pandemic situation, it was decided to conduct this induction program in online mode to eliminate the factor of physical contact and reduce any risk posed to the participants.

The session was launched at 01.50 pm to facilitate all participants to join the meeting. The induction programme was initiated and presided over by the Head of Department, Dr. S. S. Nanware. He welcomed all the students to the college and the Department. In his address, Dr. Nanware elaborately traced the history of this Department, its past achievements and the tradition of research set by past faculty members. He also introduced the students to the working and facilities available with the department. He emphasized that students should also participate in extracurricular activities along with regular study for their overall development. The Head of Department motivated the students to develop their academic skills and adopt critical scientific thinking.

**Courses, Scope and Facilities**

One of the faculty members of the Department, Mr. B. Balajirao, described the courses in the first year i.e. the four theory papers and two practical papers taught in the first and second semesters. He also detailed about the skill enhancement courses available to the students in the M.Sc. Programme.

Mr. Rao elaborately discussed the value added courses offered by the zoology department and their benefit and scope for students' future. He explained in detail the scope of M.Sc. He also explained about the IT and instrumentation facilities available with the deptt. and extolled the students to make full use of the facilities for study and their research projects.

### Teaching-Learning, Exam Rules & Regulations

Dr. Dhanraj B. Bhure, informed the students about the teaching methodology adopted by the departmental faculty members in normal times and also the current mode of delivery in Covid19 situation. He very clearly explained the exam rules and exam schedule adopted by the department.

Dr. Bhure laid out the different phases of continuous evaluation scheduled for each semester and the theory papers therein. He emphasized the need for discipline and punctuality in assignment work by students and also the significance of regularity in taking exams. He also outlined the college exam rules, the university exam rules and the different modes of examination adopted.

### Co-curricular Activities

Mr. N. B. Gavhane discussed in detail the different co-curricular activities that are a regular part of teaching-learning process. He elaborated about the requirement of student participation in curricular activities like excursions, seminars and study tours. His address included the rules of participation in outdoor activities. He also stressed the need for discipline while out of the campus on a tour or visit.

Mr. Gavhane discussed about the university level research competitions “Anveshan” and “Avishkar”; participation of past students in these events and also strongly encouraged the students to participate in various competitions organized by the college, university and other academic organizations.

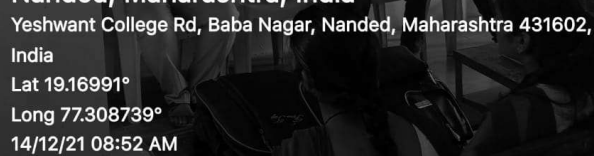

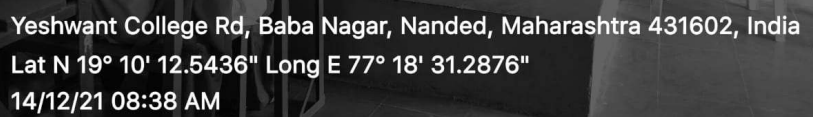

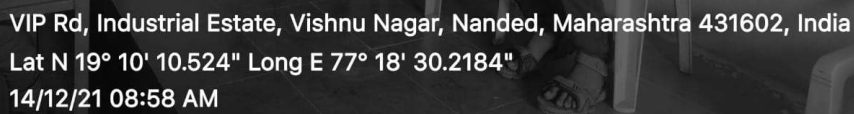

### Conclusion of Induction Programme

Dr. D. B. Bhure conveyed the vote of thanks.

Dr. Bhure urged the students to fill in and submit the online feedback form. He told them that the link will be posted soon on Whatsapp Group of B.Sc. First Year Zoology students.

**Report on**  
**The Induction Programme for B.Sc. First Year Zoology 2022-2023**  
**Held on**  
**24th August 2022**  
**From 09.00 am to 10.00 am**

**Preludes:**

The Department of Zoology deliberated and decided to conduct the induction program for the fresh batch of students of B.Sc. First Year in offline mode.

**Objectives of Induction Programme :**

- The objective of any Induction Programme is always to help fresh batch of students adjust and feel comfortable in the new environment, inculcate in them academic discipline and culture of the institution.
- And also help them bond with other students and faculty members.
- An induction program is generally a process of adjustment of students to their new roles and environment. It is a well planned event to educate the new entrants about the conditions in a particular institution, and connect them with the people in it.
- A Student Induction Programme engages students as soon as they come into the institution. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentors.

**Inducting the Students :**

As part of the established policy of the College, and under the able guidance of the Principal, Dr. Ganeshchandra N. Shinde, the Department of Zoology conducted its induction programme for B.Sc.
