**Speaker: Dr. Carlos Farnandis**, (Assistant Professor, Programme Director, LIS Program, Goa University, Goa)

**Topic: Weeding-Out/Write-off Process**

**Timing:** 12.00pm to 12.30pm

### Plenary Session IV Speech given by Dr. Carlos Farnandis,

(Assistant Professor, Programme Director, LIS Program, Goa University, Goa)

**Dr. Carlos Farnandis** in his session while speaking in the capacity of the chairman, he expressed his thoughts as below:

Weeding-out is a daunting task for librarians. He said that Recorded knowledge is growing at a fast pace. And Librarians being custodians of books/knowledge try to tend the library alive like a garden. They should act similarly as a gardener and try to weed the unnecessary collection of books. Weeding the library collections is a continuous process and always regarded as important part of collection development policy and in turn of collection management process. Weeding not only saves the space but also keep the collection lively and healthy for its users. It also saves the time of the users by providing greater accessibility to the collection. The weeding has the implications to both the fourth and fifth law of library science given by Dr. S.R. Ranganathan. Weeding is also known as 'Deselection'/ 'Collection renewal'/ 'Collection reevaluation'. He cited rules mentioned in GFR 2017 and highlighted important aspects about those rules. After the expert talks, following papers were presented under the chairmanship of Dr. Carlos Farnandis. Session concluded with the vote of thanks.

This was the last expert talk of the conference, this was conducted by Dr. U. S. Jadhav, he highlighted that physical verification of library collection can help in identifying major areas of loss and thereby can help in framing administrative guideline for collection evaluation and management policy of stock verification. He said that it is one of the occupational hazards and a post mortem. Stock Verification means Physical check-up of the documents or record. He is of the view that 40-50 % books are circulated in every library, and conducting stock verifications every year, it helps to find missing books in the library. Missing books should be written off. Very often we found damages of books; the damaged books should have to be bound properly. In case of the damaged books too useful for users and it cannot be bound; those books may be scanned (By following Copyright Act). Loss of books in an open access library is inevitable. Permissible loss should be 5:1000 annually issue and consultation of documents as GFR 2017 he added. Session concluded with the vote of thanks.

### **Plenary Session V:**

**Topic:** Open Forum/ Panel Discussion

**Timing:** 03.00pm to 04.00pm

**Chair of the Session:** Mr. Ranjeet Dharmapurikar

**Resource Persons in Discussion:**

- 1. Dr. Carlos Farnandis      2. Dr. N. B. Dahibhate,      3. Dr. U. S. Jadhav,**
- 4. Dr. Nanadkumar Motewar,      5. Dr. K.N. Wadje**

In Open Forum/ Panel Discussion all resource persons and experts appealed to all the participants to express their opinion, doubts, and recommendations on the theme of the conference based on two days discussions. Many of the participants shared their views, opinions and doubts. In all it is commonly suggested that there should be a uniformity in weeding-out processes all over India. UGC and all equivalent and agencies should come forward to suggest certain measures to face the situations.

Librarians should not be allowed to waste their valuable time in administrating the weeding-out process. It is also recommended that proper justification for weeding-out must be in practice. The process of recycling of weeded-out material must be defined out. Rare and casually used documents which may have future potentiality must be preserved. Systematic weeding-out plan should be formulated, so that unnecessary exercise of weeding-out important documents may be avoided. Continuous research in this respect should be conducted on university level. Study like obsolescence of literature, content analysis of overall collections of library, bibliometric study, etc. should be done continuously by every librarian once in a three year.

Open Forum/ Panel Discussion: Under the Chairmanship of Mr. R. G. Dharmapurikar,  
Resource persons Hon. Dr. N. B. Dahibhate, Dr. Carlos Farnandis, Dr. U. S. Jadhav,  
Dr. Nanadkumar Motewar

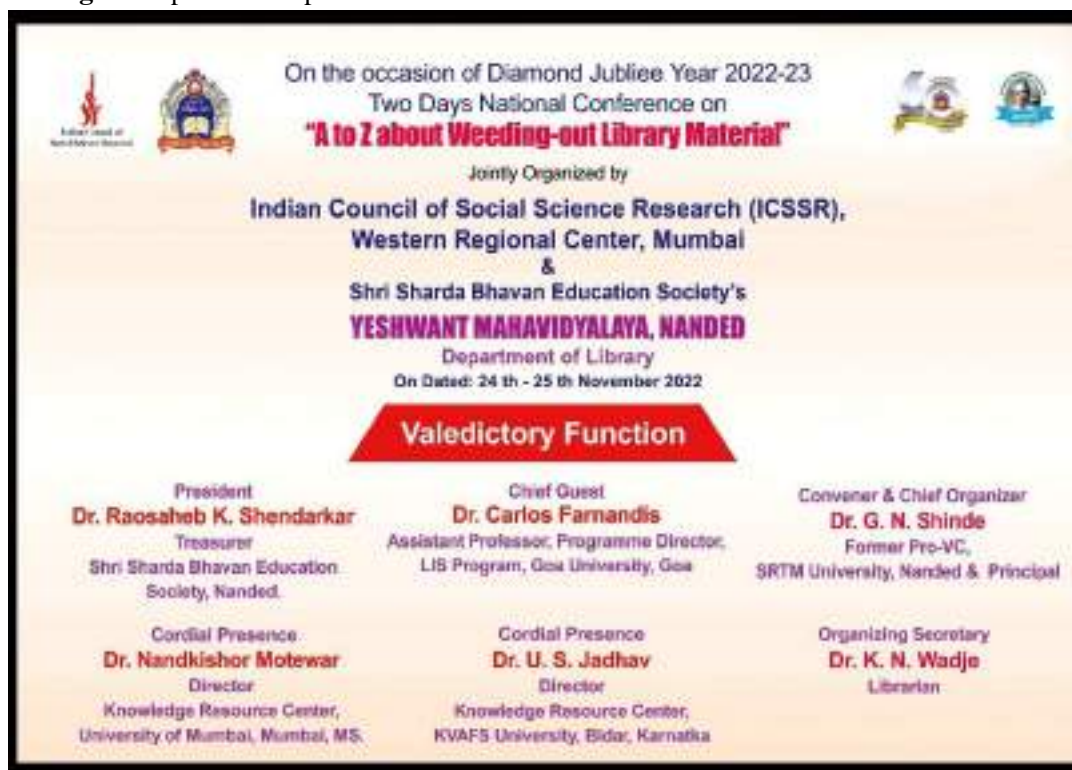

Stock verification is the gateway of weeding-out. Library should maintain the past history of use of collection. Proper justification should be provided to the fifth law of library science that is library is growing organism. Adding collection in the library is no doubt prestigious work but on the contrary space is also important to accommodate newly updated documents. Finally panel recommended that such kind of discussions should be discussed in each type of library based on the users perceptions and document use behaviors of users, weeding-out policy is to be framed. Panel also recommended that special GFR for libraries should be published. And it should be updated for every year. As the uses of electronic resources are increasing day by day, but there is no weeding-out policy of such material. So the panel recommended framing the policy for such e-resources. Panel also recommended that there should be a common dormitory on district, regional and national level for reading material to deposit weeded-out resources, so that needy users or libraries may use those resources for their purpose.

<b>Subject: Regarding Lecture delivered as a Resource Person for Two Days National Conference entitled "A to Z about Weeding-out Library Material".</b>		
Dear Sir, We are very much thankful to you for delivered lecture/speech on the subject <b><u>Weeding-Out Library Material and General Financial Rules 2017</u></b> and graced the occasion as a Resource Person in the Two Days National Level Conference jointly organized by Department of Library & Library Advisory Committee (LAC), Yeshwant Mahavidyalaya, Nanded with Indian Council of Social Sciences Research (ICSSR), Mumbai, entitled <b>"A to Z about Weeding-out Library Material"</b> on dated 24 <sup>th</sup> - 25 <sup>th</sup> November, 2022 on the occasion of Diamond Jubilee Year 2022-23 of our college Yeshwant Mahavidyalaya, Nanded, for LIS professionals, Faculties and Librarians. Your lecture/speech as well as visual presentation sessions is very informative. Definitely, it has provided both theoretical base and practical skill to the participants to empower them to their academic/educational benefits wherever they are working and developed awareness of transforming Work Culture of weeding-out/writes-off library material in earlier age and face the future challenges with respect to weeding-out preparations. Thanking you,		
 <b>Organizing Secretary</b> <b>Dr. K. N. Wadje</b> <b>LIBRARIAN</b> Yeshwant Mahavidyalaya, NANDED	With regards, Yours:	 <b>Coverage &amp; Chief Organizer</b> <b>Dr. G. N. Shinde</b> Yeshwant Mahavidyalaya, NANDED Principal
