1 INTRODUCTION:

Yeshwant Mahavidyalaya, Nanded has implemented an Online Feedback System starting from the academic year 2020–2021. This system, introduced at the end of the academic year, is designed to dynamically assess and enhance the academic progress of students. It aims to align the teaching-learning process with market demands and stakeholder expectations while providing valuable insights to teachers regarding their teaching methods, personality, and overall impact on students.

The feedback mechanism is termed dynamic because students have the flexibility to submit their feedback at any time. However, it is structured around the academic semesters, requiring students to give course-wise and teacher-specific feedback in the months following the completion of teaching and prior to the semester-end examinations.

The Internal Quality Assurance Cell (IQAC) recognized that traditional methods of collecting feedback had limitations. By shifting to an online system, the College can more effectively evaluate the relevance of its curriculum, the effectiveness of its teaching practices, and gather innovative suggestions directly from its primary stakeholders — the students.

This feedback initiative also fosters greater student involvement in the quality assurance process. It encourages them to take an active role in shaping and sustaining high-quality educational standards, contributing to a vibrant academic environment, and nurturing a culture of quality and innovation across the campus. In order to promote student participation in assuring and promoting the Quality, following different feedback were collected for 2 terms of the AY 2025-26 from different stakeholders with following number of responses.

Feedback Form	Term 1	Term 2	Total
Students' College Feedback	520	492	1012
Parents' College Feedback	422	385	807
Faculties' College Feedback	20	25	45
Alumni' College Feedback	30	54	84
Students' Teacher Feedback	3123	7389	10512

For Feedback survey, regarding Teaching, Learning Evaluation, Infrastructure and practices, a Questionnaire developed by NAAC was shared with the students through WhatsApp Groups.

2 OBJECTIVES OF FEEDBACK:

- To find out the **satisfactory level** of the students with regard to important parameters, i.e. curriculum, teaching- learning, evaluation, student support and progression of the College.
- **Quality Improvement:** Obtaining feedback helps the college identify areas of improvement in its academic programs, campus facilities, teaching methods, and overall student experience.
- **Accountability:** Feedback surveys hold the college accountable to its stakeholders by allowing them to voice their opinions and concerns.
- **Understanding Stakeholder Needs:** Feedback surveys help the college understand the needs and preferences of its students, parents, alumni, and faculty members, enabling them to make informed decisions.
- **Enhancing Communication:** Surveys facilitate communication between the college administration and stakeholders, fostering a culture of transparency and trust.
- **Assessing Satisfaction:** Surveys help measure the satisfaction levels of students, parents, alumni, and faculty members, which can be used to gauge overall performance and make necessary improvements.
- **Identifying Successes:** Feedback surveys can highlight areas where the college is excelling, allowing them to leverage those strengths and showcase them to prospective students and other stakeholders.
- **Engagement and Involvement:** Conducting surveys demonstrates that the college values the opinions of its stakeholders and encourages active participation in shaping the college's future.

By analysing the feedback collected from these surveys, college can make data-driven decisions to improve overall satisfaction, retention rates, and educational outcomes for all stakeholders involved.
