About the Seminar:

The National Education Policy 2020 (NEP) is a policy formulated by the Government of India which covers elementary education to higher education in both rural and urban India. It discusses reducing curriculum content to enhance essential learning, critical thinking and more holistic experiential, discussion-based and analysis- based learning and also talks about a revision of the curriculum and pedagogical structure.

The accreditation and re-accreditation of higher education institutions by NAAC Bangalore is a mandatory procedure of external evaluation of the quality of all higher education institutions that is carried out in five-year cycles. The evaluation of a higher education institution includes a quality analysis and an assessment made by an expert panel according to a four-point scale and previously defined quality standards, divided into five areas of institutional activity:

- Internal quality assurance and the social role of the higher education institution,
- Study programmes,
